

Please replace claims 1 and 28 with Amended claims, shown below in their amended form:

1 1. (Amended) A hand held terminal for optically scanning coded information, comprising:
2 an electronic housing having a major axis, an intermediate axis and a minor axis and an
3 optical scanning device mounted at a first longitudinal end thereof with respect to said major
4 axis;
5 a multi-line information display arranged on a top surface of said electronic housing, said
6 display facing in a direction corresponding to said minor axis;
7 a handle comprising a handgrip having a handle axis and extending outwardly from said
8 electronic housing at a second longitudinal end thereof, said handle axis forming an angle of
9 approximately 0 to 45 degree from said major axis and being perpendicular to said intermediate
10 axis; and
11 an operator control arranged on said top surface adjacent said second end of said
12 electronic housing for operation by the thumb of a user on a hand grasping the handle.

1 28. (amended) An electronic assembly for a hand-held data acquisition terminal
2 comprising:
3 a lower housing member having an upper opening and a handle section;
4 an upper housing member arranged to close said upper opening and including a display
5 window.
6 a chassis arranged to be mechanically mounted between said lower and upper housing
7 members, said chassis having upper and lower recesses;
8 a display mounted in said upper recess of said chassis and facing said display window;
9 a first circuit mounted in said lower recess of said chassis; and

cont

10

a second circuit mounted to said chassis and covering said lower recess and said first

11

circuit mounted therein.

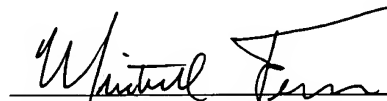

Claim 1 has been amended to remove the term "ovoid" from the end of line 27 and to specify that the thumb is on the hand grasping the handle of the device. Claim 28 has been amended to specify, in line 3, that the housing member has "a handle section" to allow claim 28 to be grouped with claim 1 and avoid a restriction requirement such as was issued in the parent application.

Entry of this amendment and an early and favorable examination on the merits is respectfully requested.

Respectfully submitted,

Date:

Nov. 6, 2001
